SUMMARY

As a front-end developer, I have experience working with React, JavaScript, and HTML/CSS to deliver exceptional customer experiences. I hold a 4-year Information Technology degree, and I am adept at contributing to a highly collaborative work environment, finding solutions, and determining customer satisfaction.

SKILLS

- React
- Redux
- TypeScript
- Node.js
- Angular
- JavaScript
- JQuery
- SASS
- Bootstrap
- CSS3
- HTML5
- Webpack
- Git
- Next JS

EXPERIENCE

FRONT-END INTERN | 09/2023 to 01/2024

AzInTelecom - Baku, Azerbaijan

During my internship as a Front-End Developer at AzInTelecom, I honed my skills in modern web development technologies with a particular emphasis on the following: I utilized Figma extensively to process design patterns, ensuring the creation of user-friendly and aesthetically pleasing web applications. Integrated React Query library within the React framework, optimizing data management processes for enhanced application performance and efficiency. Implemented TypeScript in React projects, contributing to improved type safety and development processes. This resulted in more readable, maintainable, and error-resistant code

Processed project workflows in adherence to Figma design patterns, fostering effective communication between design and development teams. Managed our projects efficiently using Git, actively contributing to version control processes and ensuring a streamlined collaborative environment. Collaborated seamlessly with cross-functional teams, considering user feedback and engaging in regular feedback exchanges to iteratively enhance projects

FRONT-END INTERN | 06/2023 to 10/2023

UNISER MMC - Baku, Azerbaijan

Throughout my internship at UNISER MMC, I specialized in Angular development, concentrating on daily responsibilities and project goals. Noteworthy contributions encompassed: - Angular Material Utilization: Employed Angular Material to craft visually attractive and uniform UI components. Collaborative Task Execution: Collaborated closely with interdisciplinary teams, effectively accomplishing assigned duties, and contributing to collaborative problem-solving sessions. Version Control and Documentation: Oversaw project versions utilizing Git and played an active role in documentation initiatives. Code Reviews and Enhancements: Participated in code reviews, furnishing constructive feedback, and actively engaged in initiatives for ongoing improvement.

DATABASE DEVELOPER INTERN | 02/2023 to 05/2023

SINAM LTD - Baku, Azerbaijan

My internship at Sinam LTD was centered around applying fundamental Oracle SQL skills to streamline daily tasks and contribute to the company's operational efficiency. Key highlights of my contributions include: - Oracle SQL Proficiency: Applied fundamental Oracle SQL skills to execute daily tasks, demonstrating competency in querying databases, managing data, and ensuring data integrity. Task Execution: Completed assigned tasks promptly, utilizing

Oracle SQL for data manipulation, retrieval, and maintenance. Learning and Adaptability:
Acquired hands-on experience with Oracle SQL, rapidly adapting to evolving tasks and
enhancing proficiency in database operations.
